

Building  
Our  
Islands

# ARTitecture

Email your design to  
marketing@lanntair.com  
Deadline 21st of March

Artist's name:

### How to create your ARTitecture:

Create your design inside the line of the building for your work of ART to be projected on the Giral, Rodel

You can either bring in your completed "canvas" in person to An Lanntair or Museum nan Eilean or scan and email it. If scanning please ensure it is high res but not more than 5MB.

Please visit [www.lanntair.com](http://www.lanntair.com) for more information on Building our Islands

### History of the Store Giral, Rodel, Isle of Harris

Estimated 18th century tin roofed structure perched above the harbour, its ground floor entered from the rear, and a roofless granary with ventilation slits. The rear enclosure, with thick, buttressed walls, suggests an earlier building, but possibly the '*kepping house*' for which blacksmith John Morrison received a payment for 'dressing the locks and bonds of Macleod's keeping house and girnels at Roudill' in 1708.

## Lights on Fri 24 March
